DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see the amendment, filed 26 January 2005, with respect to the rejection(s) of claim(s) 1-24, 27-30 and 33 under Ward and Tilley in view of the amendment have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, consideration of copending application number 10/070,013 introduces a nonstatutory double patenting rejection as follows.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-24, 27-30 and 33 are provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 1 of copending Application No. 10/070,013. Although the conflicting claims are not identical, they are not patentably distinct from each other. Independent claim 1 of the 10/070,013 application claims a radio frequency up-converter that comprises claim language regarding a synthesizer that is the same synthesizer and the claimed subject matter of claim 1 of the 10/070,280 application.

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
